Zuidkampweg

Vernieuwde entree

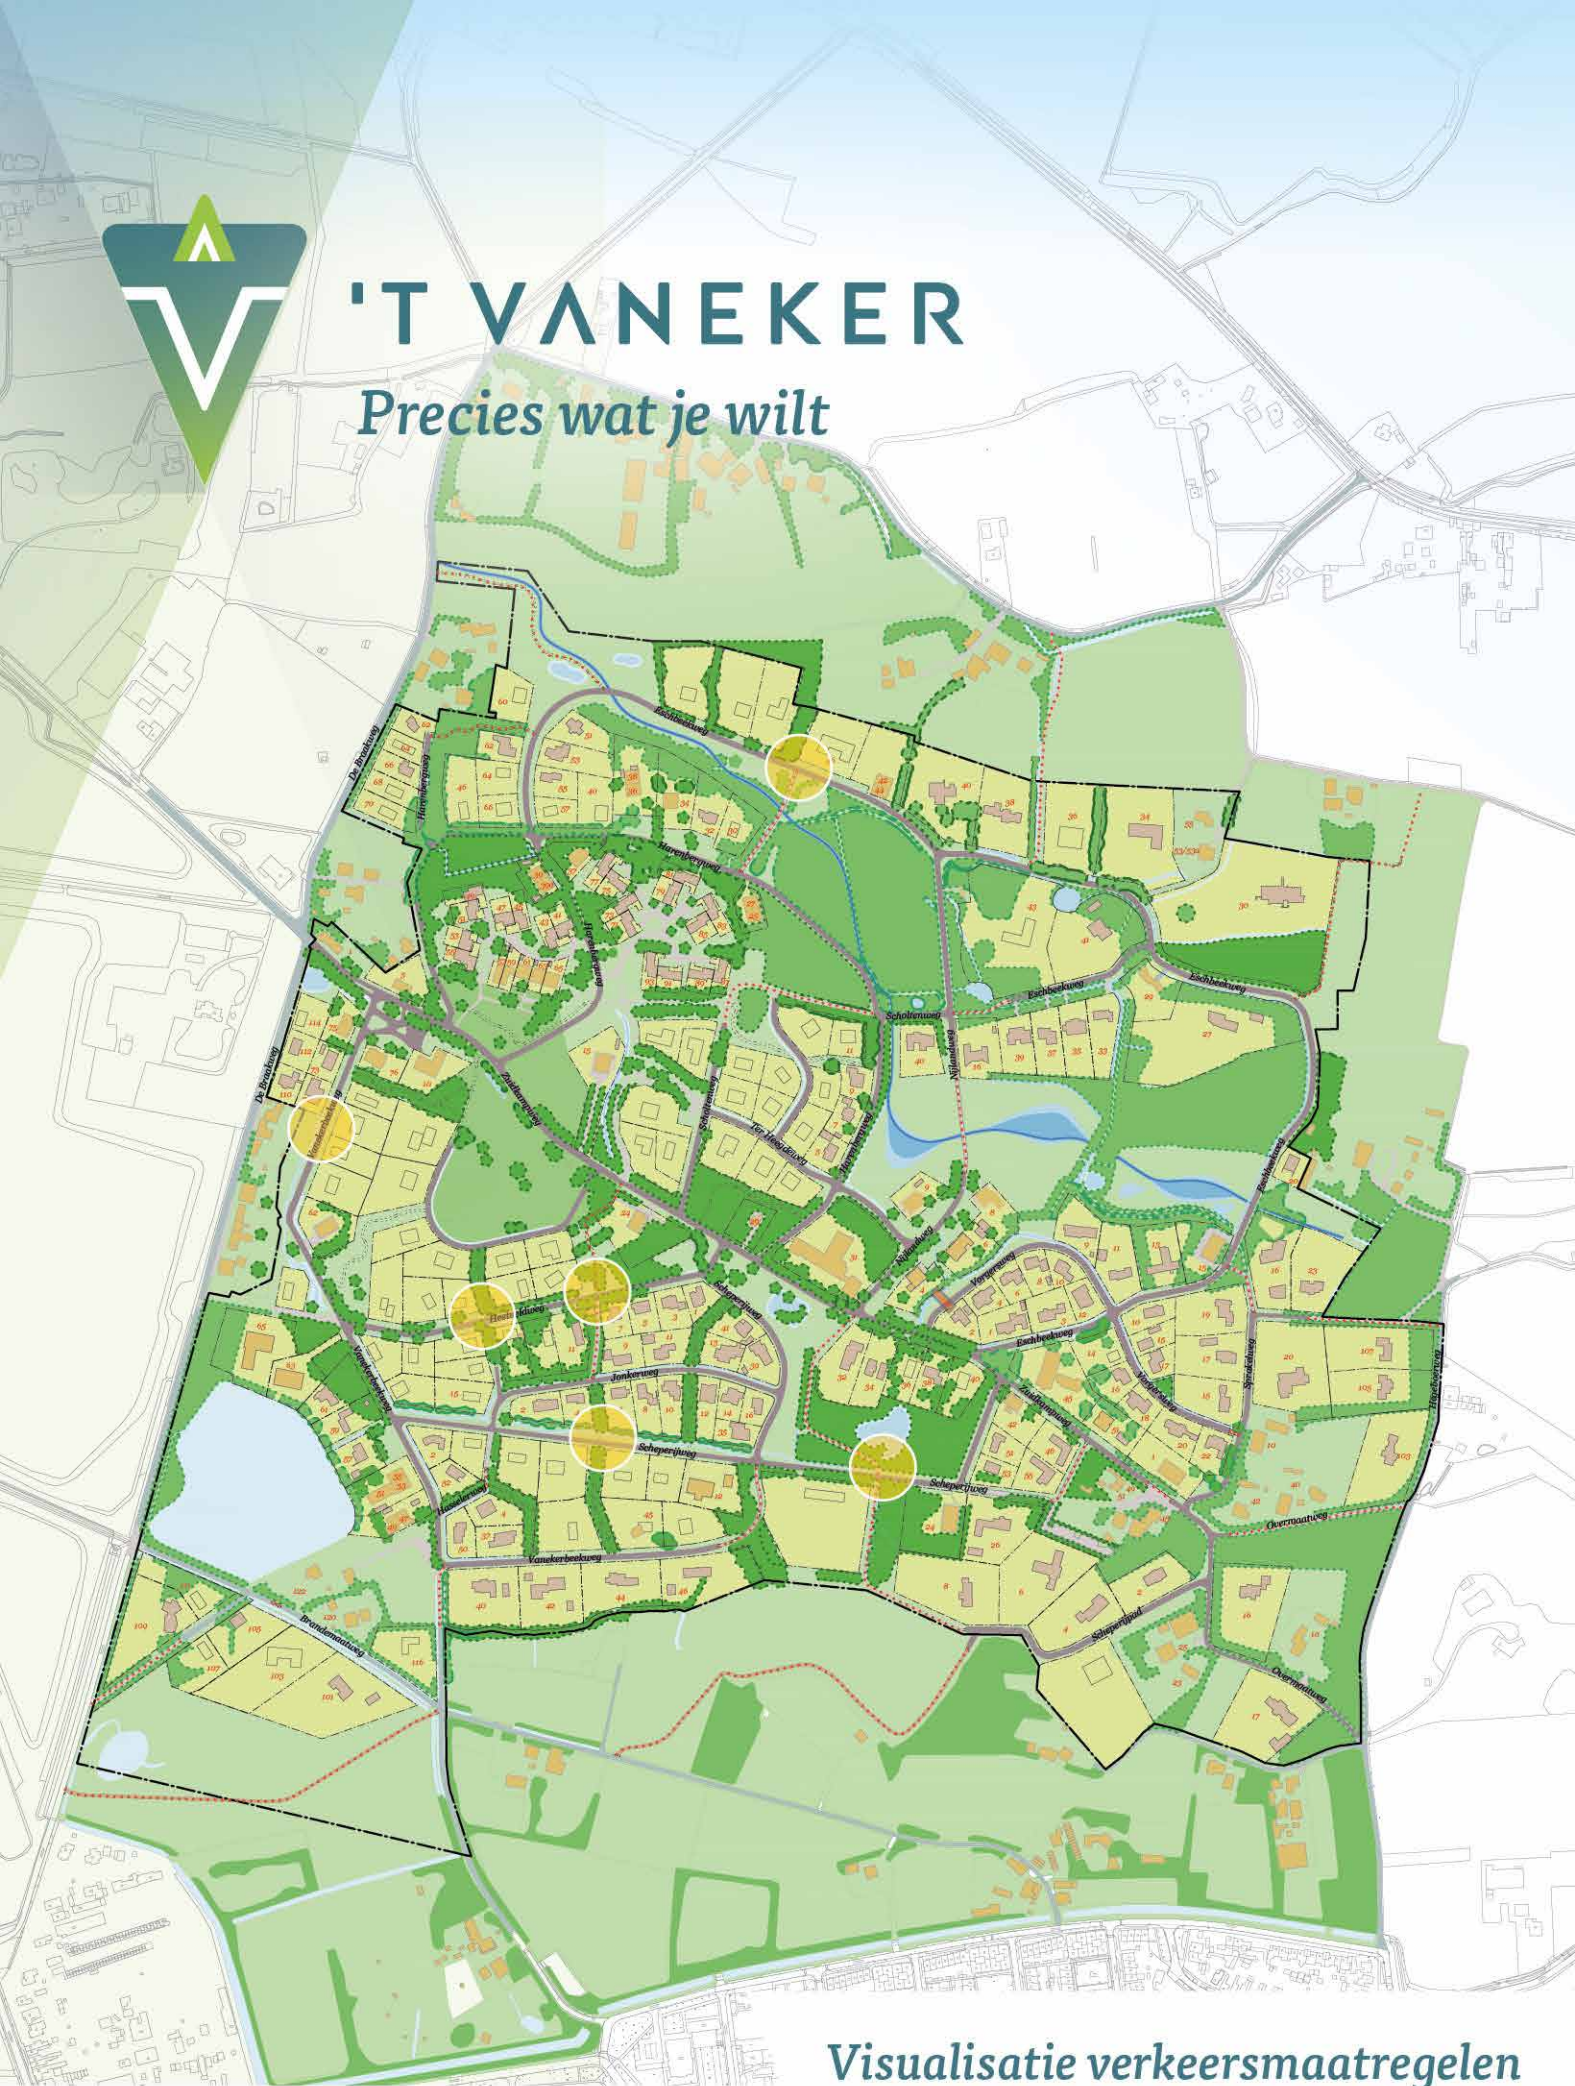

A wide, paved path made of light-colored bricks or stones leads from the foreground into the distance. The path is flanked by large, mature trees with dense green foliage, creating a canopy effect. On the left, a tree trunk is covered in ivy. In the background, residential houses are visible through the trees. A yellow sign is on the left side of the path, and a white signpost is on the right. The overall scene is a peaceful, tree-lined residential street.
